

CLASS	CHEMISTRY	MATHEMATICS	PHYSICS
CM68 -6	Alky & Aryl Halides, Alcohol, Ether & Phenol	Functions, Limits Continuity & Differentiability, Application of Derivatives	Electrostatics, Current Electricity
	Aldehyde & Ketone, Carboxylic Acids & Derivatives Amines	Indefinite Integrals, Definite Integrals, Area, Differential Equations	Magnetism
	Carbohydrate, Amino Acids, Polymers & POC, Qualitative Analysis, Solid State, Liquid Solution, Electrochemistry	Probability, Determinants, Matrices & Vector	Electromagnetic Induction
	Transition Elements & Coordination Compounds, Gr 15-18 Groups, Ores & Metallurgy Chemistry In Everyday Life	3-D Geometry Sets Relation & Function	Geometrical Optics & Wave Optics, Modern Physics Error Analysis

CLASS	CHEMISTRY	MATHEMATICS	PHYSICS
CM68 -5	Mole Concept, Balancing of redox reactions & Stoichiometry Gaseous State Atomic Structure Periodic Properties	Basic Mathematics Straight Line Trigonometry Trigonometry Ratios & Identities Mathematical Reasoning	Units & Dimensions Vectors Kinematics
	Chemical Bonding Group 1 & Group 2 Hydrogen & Its Compounds Chemical Kinetics Chemical Equilibrium	Logarithms Mathematical Induction Height & Distance Inverse Trigonometric Function Circles Parabola	Laws Of Motion Work Power & Energy Conservation Of Momentum
	Ionic Equilibrium Thermodynamics Group 13 & Group 14	Ellipse Statistics Hyperbola Quadratic Equations & Expressions	Rotational Motion Gravitation Fluids
	General Organic Chemistry Isomerism Electrophilic Aromatic Substitution Hydrocarbons Environmental Chemistry Boron & Carbon Family	Binomial Theorem Permutation & Combination Progression and Series Solution Of Triangle Trigonometric Equations Complex Numbers	Simple Harmonic Motion Waves & Sound Heat & Thermodynamics
