

How student can challenge their answer key on student domain.

- The student must have updated his/her profile on student domain (<https://www.fiitjeellogin.com/>) and add enrolment no. for credential purpose by using own web access code.
- The provisional result of the test will be declared online at our FIITJEE's Online Service Management Portal (<https://www.fiitjeellogin.com/>).
- Before this test results get finalized, you have an option to challenge the Answer Keys and this option is available under "My Test Wise Performance Reports" Link.
- The option to challenge the answer keys will be available after upload the provisional report. The CUT-OFF DATE/TIME for submitting your challenges online is only for 4 days.
- If there are NO CHALLENGES made against the Answer keys before the cut-off date/time, then it will be understood that you have accepted all the marks awarded as correct. However, there can still be a change in your final score if there are any master key changes.
- Please ensure that you do not challenge the questions arbitrarily, because each student will be allowed to make challenges till the time his/her count in last 365 days for unsuccessful/ rejected challenge is less than 100.
- The final result will be available online only after accept answer key challenge by students.
