Step 2: One popup will open. Click on “Download App” to download the app file (.apk) on your android mobile phone

Download our Mobile App

Due to Covid-19 pandemic situation, Google Play is taking more time than usual to release our app on playstore.

You can still download our app on your android phone from the button below and follow the instructions as per the document to install the application successfully.

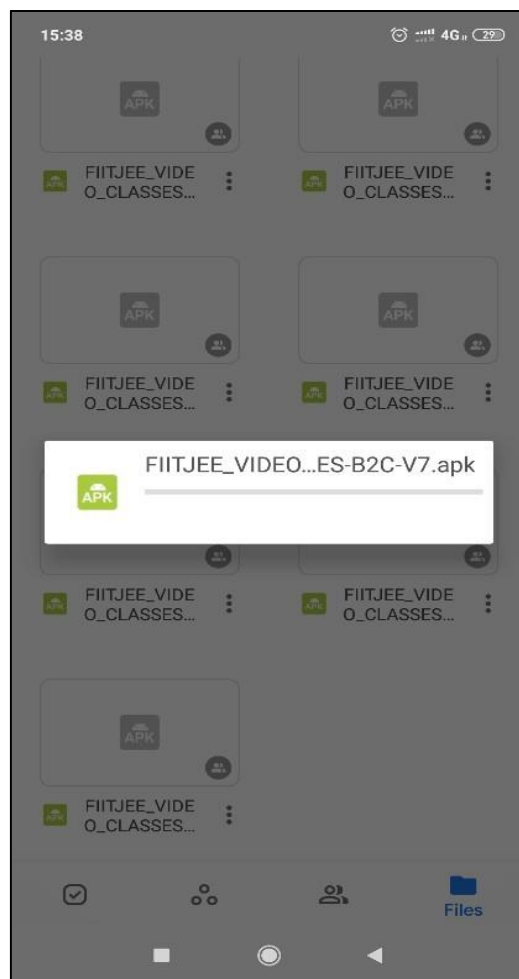

Note – App not available on iOS devices

 [Instructions to install App](#)

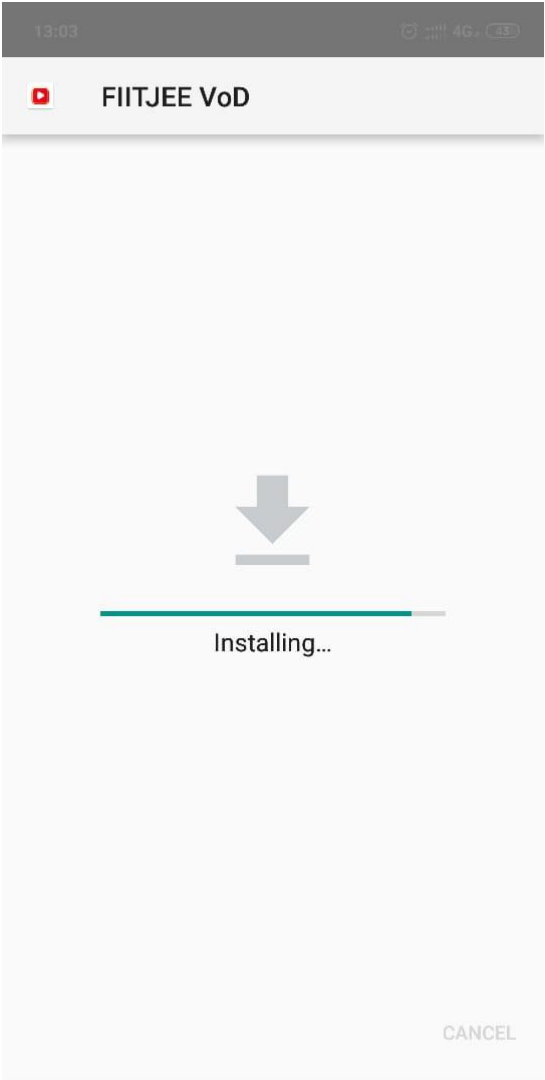

Click here

Step 3: Go to your downloads folder in your phone storage and click on the apk file downloaded earlier.

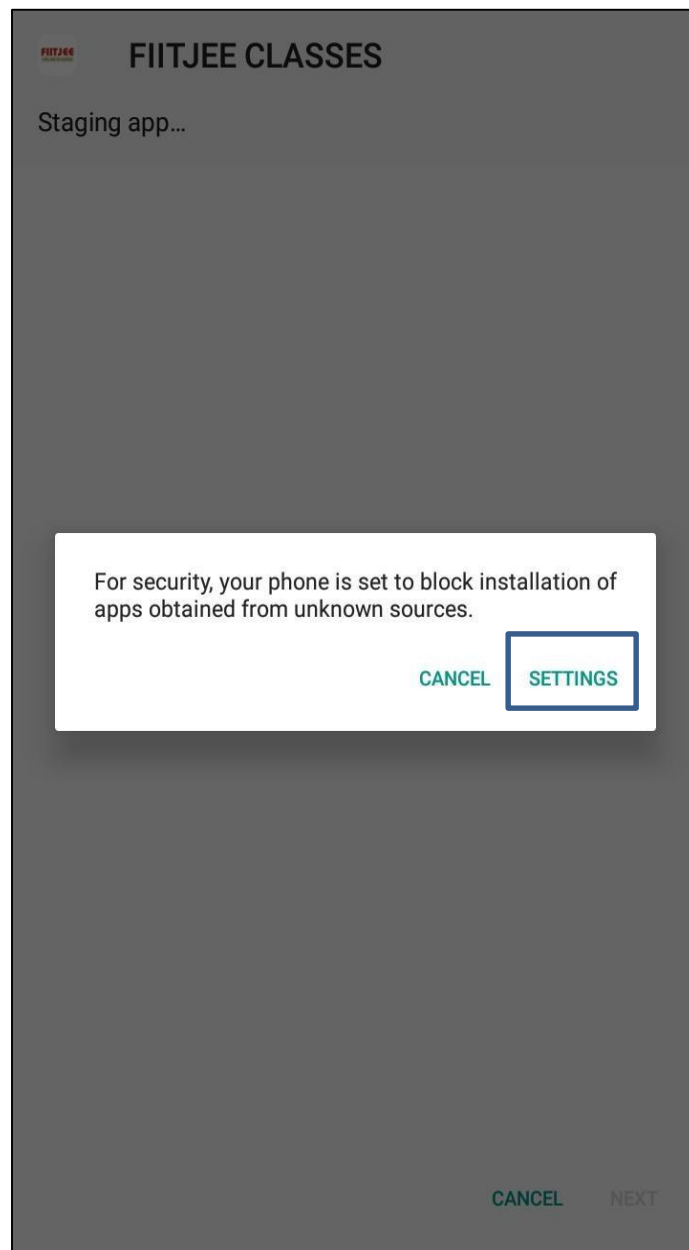

Step 4: The apk file will open and ask your permission to install the application. Click “Install”.

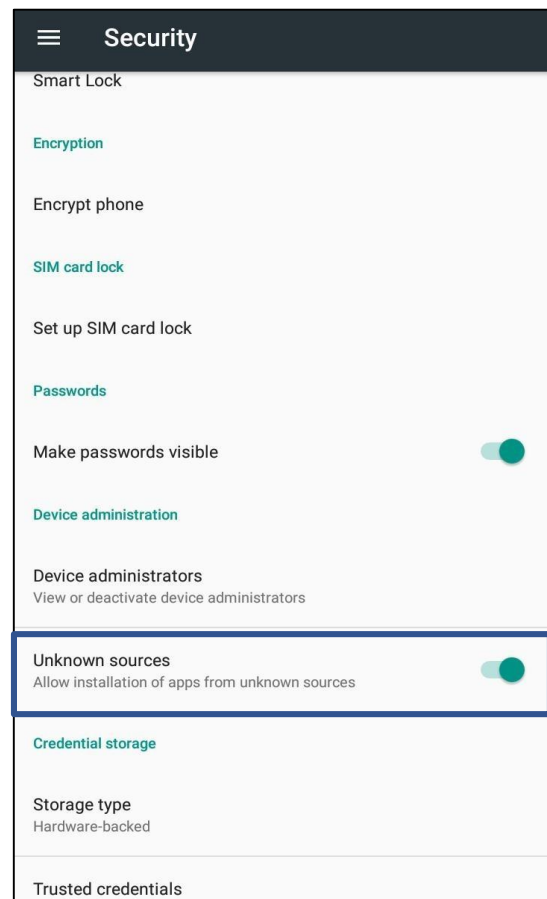

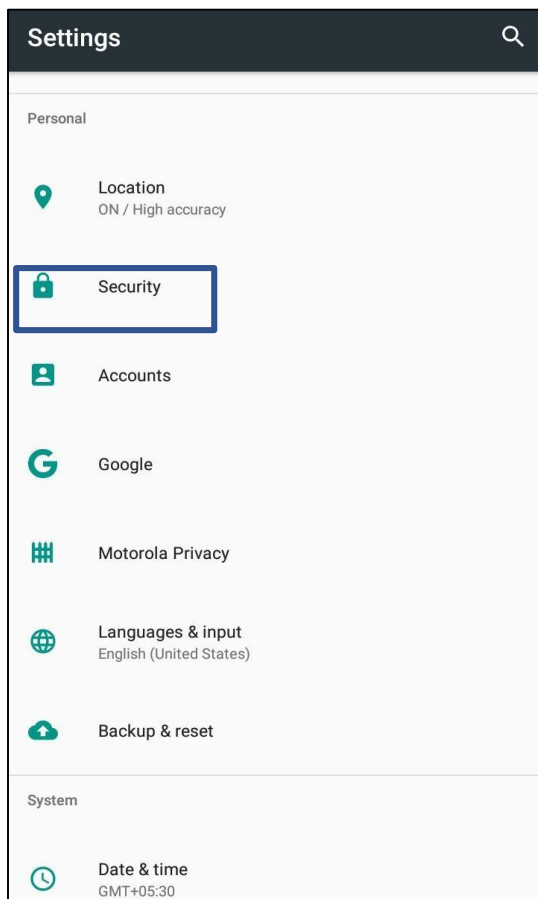

Step 5: Since this application is not on Google Playstore, Google Play Protect security features may ask for you to change your settings to allow installation of unknown apps.

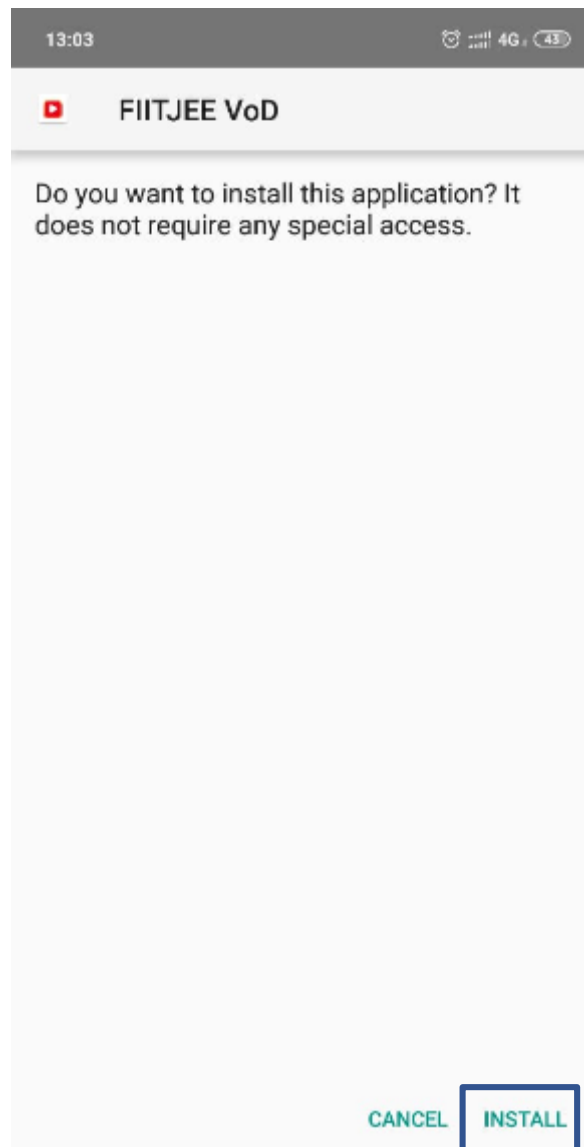

Click on “Settings”

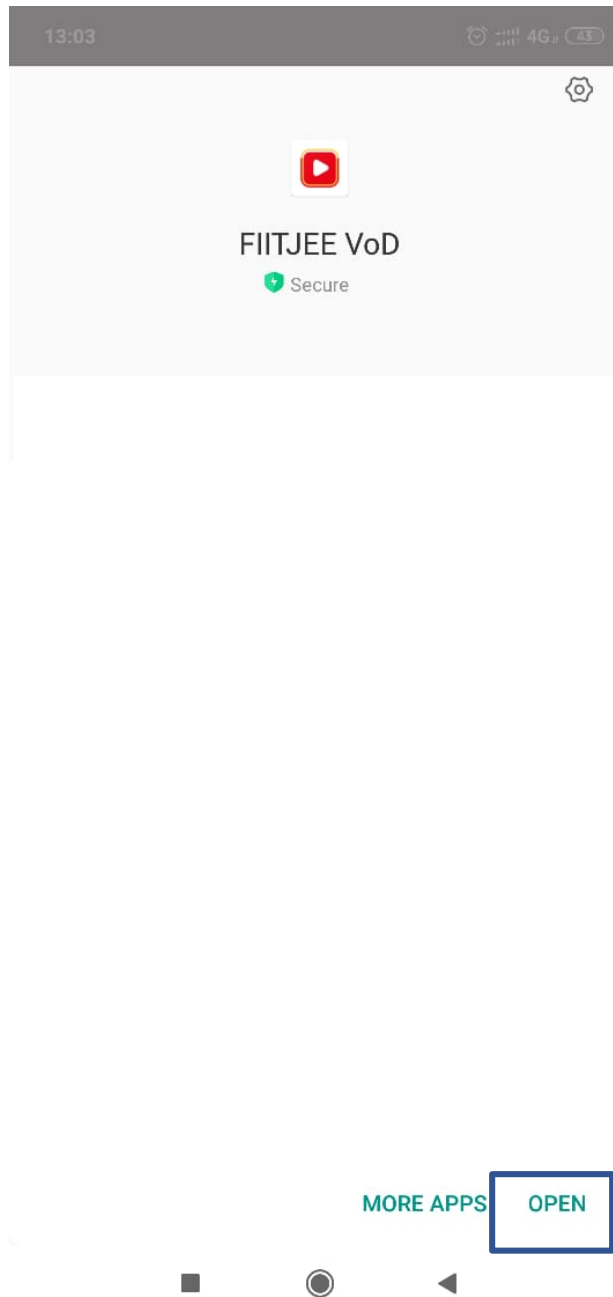

Step 6: On the Settings page, go to “Security” and then allow the ‘Unknown Sources’ option.

Step 7: After changing the Settings, again click on “Install”.

Step 8: Congratulations! Your App is now installed in your phone. Click “Open” to start the app.

Step 9: After opening the app, login screen will appear.
